Gennesaret  
Free Clinics

## OUR MISSION

Gennesaret Free Clinics (GFC) provides quality, accessible and compassionate patient-centered healthcare for persons experiencing homelessness or lacking established healthcare. Seeking to serve, Gennesaret Free Clinics is a dedicated team of healthcare professionals, staff, and volunteers who treat all persons with dignity and respect.

## OUR VISION

Since 1988, Gennesaret Free Clinics has annually served thousands of the most vulnerable individuals in the Indianapolis community, including those experiencing homelessness and living in poverty. GFC is disrupting poverty in Marion County by bringing compassionate and patient-centered healthcare directly to those who need it the most at no cost.

# GENNESARET FREE CLINICS STARTED WITH A BOWL OF SOUP.

Our story began in February 1988 when Dr. James A. Trippi, a local physician, was volunteering at a local soup kitchen.

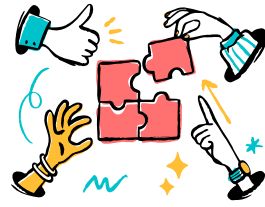

As he observed his fellow neighbors navigating the lengthy lines and collecting their warm meals, the majority of whom were experiencing homelessness, he couldn't help but begin diagnosing their visible ailments in his head.

## HE FINALLY MUSTERED THE COURAGE TO ASK PEOPLE IF THEY HAD ACCESS TO MEDICAL CARE, ONLY TO BE MET WITH A RESOUNDING...

# "NO, I DON'T."

Awakened by the need, Dr. Trippi packed his black medical bag and rallied some of his colleagues together to provide treatment to the most medically underserved Hoosiers in our community.

## IT TAKES A VILLAGE!

Gennesaret Free Clinics (GFC) became the very first nonprofit organization in Indianapolis to bring quality medical care to individuals regardless of insurance status or their ability to pay for medical care.

## HEALTHCARE FOR ALL!

Fast forward to 2024, GFC annually serves thousands of people who need our help in Marion County and beyond. And that number continues to grow. No matter a patient's health insurance coverage, citizenship, or ability to pay, Gennesaret Free Clinics provides services at no cost. There will never be a bill for patients, no copays, and all medications are completely free.

## HEALTHCARE IS A HUMAN RIGHT!

# COMMUNITY NEED

**10.7%**

of our neighbors in Marion County are uninsured, which is about 103,732 people

**1 in 5**

Hoosiers in Marion County had overdue medical debt in 2022

**15.1%**

or nearly 146,353 people in Marion County live below the federal poverty line

**65%**

of families at or below the federal poverty line have not been to the dentist in the last year

**1,701**

people in Indy slept in emergency housing or went unsheltered in January 2024

**21%**

of community members in 46218 (where GFC has targeted primary care) have diabetes, compared to a 12% average in Indiana

**53%**

of women over 40 cited cost as a reason they have not recently had a mammogram

**30%**

of adults say they have not filled a prescription medication because of cost, or took a smaller dose than prescribed

**38%**

of individuals under 30 reported needing to go to a doctor in the last year but chose not to because of cost

Monday	9 am - 5 pm
Tuesday	9 am - 5 pm
Wednesday	9 am - 1:30 pm
Thursday	9 am - 5 pm
Friday	Closed
Saturday	Closed
Sunday	Closed

## REAL IMPACT REAL LIVES *saved*

René has been experiencing homelessness and living in her car since 2021.

**AMIDST THE CHALLENGES OF LIVING IN HER VEHICLE, RENÉ NOTICED A LUMP IN HER BREAST. SHE WAS TERRIFIED THAT IT WAS CANCER. SHE FELT LIKE THE WORLD WAS CRUMBLING BENEATH HER FEET.**

Fortunately, René was directed to Gennesaret's Women's Health Services. But with no income or health insurance, she was scared that she would be turned away. When René reached out to the Gennesaret team, they reassured her that all services would be provided at no cost and that they would walk alongside her every step of the way. The team arranged for a mammogram for René... and later got to tell her that the lump was non-cancerous and did not necessitate any medical intervention!

**WITH NEWFOUND TRUST AND SAFETY, SHE BEGAN TO EXPLORE ADDITIONAL FREE SERVICES.**

René felt comfortable enough to address other health concerns—like the tooth abscess that had been causing her extreme pain and inhibited her ability to eat for weeks. René scheduled a visit with Dr. Kate Gribbin, Gennesaret's dentist. During her dental exam, Dr. Gribbin extracted the tooth that was beyond saving and causing René pain, providing immediate relief.

**RENÉ SHARED, "GENNESARET FREE CLINICS TREATS EVERYONE WITH KINDNESS. THEY UNDERSTAND IF YOU HAVE NO MONEY OR NO INSURANCE. THEY WANT TO PROVIDE HEALTHCARE BECAUSE THEY TRULY CARE."**

## REAL IMPACT REAL LIVES

*saved*

After relocating from Illinois to Indiana, Arthur found himself in an unfamiliar space with limited support and had nowhere to turn. A disabled veteran, Arthur was living in his car and desperately trying to manage his health.

**WHILE ARTHUR WAS ABLE TO GET SOME HEALTH SERVICES FROM THE LOCAL VA HOSPITAL, HE HAD NO PLACE TO GO TO HELP HIM WITH HIS ONGOING CONGESTIVE HEART FAILURE. HE WAS TOO SICK TO STAY IN A SHELTER. HE NEEDED HELP.**

The social worker from the VA assisted Arthur with gaining admission to Gennesaret's Health Recovery Home. Arthur was welcomed by a private room and compassionate staff dedicated to aiding him in managing his medical needs. During his stay, Arthur experienced a level of health stability that he had not enjoyed in quite some time. Following several months of recovery, combined with the support from the staff and his own resolve, Arthur successfully secured an apartment of his very own!

**ARTHUR RECOUNTED HIS EXPERIENCE, “[GENNESARET] HELPED ME REALLY CONCENTRATE ON MY MENTAL AND PHYSICAL HEALTH. THEY MADE ME FEEL GOOD AGAIN ABOUT MYSELF. . . AS I GOT BETTER, THEY ASSISTED ME WITH FINDING AN APARTMENT AND I HAVE BEEN ON THE RIGHT PATH EVER SINCE.”**

Several years later, Arthur is doing well and still lives in his apartment! He keeps in close contact with his Gennesaret family, who couldn't be more proud of him.

# EXAMPLES OF YOUR IMPACT

\$1,750

Provide gas for 6 months of service for the Mobile Medical Clinic, offering free care on the streets and in parking lots where it is needed most

---

\$2,000

Provide 800 hygiene kits to patients during street outreach, fostering trust and rapport between GFC and those we serve

---

\$3,500

Provide language translation services to over 300 patients a month

---

\$4,000

Provide nearly 300 patients with point-of-care rapid diagnostic testing so care is immediate and the highest quality available

---

\$7,000

Provide free medications for all GFC patients across all clinic sites for two months

---

\$10,000

Provide specialized external lab testing for patient samples at all clinic locations for an entire year

---

\$15,000

Provide 15-20 patients with a full set of dentures, restoring their confidence and ability to eat

---

\$20,000

Provide 20 women with essential early detection services for breast and cervical cancer

DONATE 

THANK YOU!
